REMARKS:

Attached is a note to me from  
Don Steininger which all of you  
should read since it describes  
how the DDS&T front office would  
like relationships between you  
and the DDS&T handled.

MEMORANDUM FOR: Deputy/DCI/NIO

SUBJECT: Tasking of DD/S&T Components by NIO's

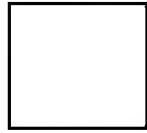

George -

STAT

1. Partly as a result of a recent discussion I had with [redacted] DD/S&T has considered the question of what procedures we would prefer in the tasking of DD/S&T components by your NIO's. Our preference is to have all tasking levied at the Office Director level. Neither Carl nor I wish to interject ourselves between the Offices and the NIO's but, for the time being, we would like to have the office chiefs involved in assessing priorities and allocating work assignments to their components. It is requested that you inform the NIO's of the above procedures.

2. This is only a first effort to standardize our relationships, and we intend to monitor these procedures to see if changes are in order. We would also appreciate any observations you might have now or after the system is in operation.
